

## The Coronavirus Hoax Used to Create DeFacto Global Martial Law

On March 18, 2020, the Los Angeles Times published a headline stating:

*“Coronavirus poses dreadful choice for global leaders: Wreck your economy or lose millions of lives”*

The Article states:

*The White House has based some of its new plans on a research model developed by doctors and scientists at Imperial College in London that suggests the coronavirus epidemic in the United States could kill at least 2.2 million Americans over the next few months if left uncontrolled.*

<https://www.latimes.com/politics/story/2020-03-18/coronavirus-poses-dreadful-choice-for-global-leaders-wreck-your-economy-or-lose-millions-of-lives>

The headline and the article quote are used as the core arguments for:

- 1) Declaring Defacto Global Martial Law
- 2) Destroying virtually every single Civil Liberty guaranteed by the United States Constitution
- 3) Destroying the asset value of virtually every human invested in any global stock exchange, futures markets, property values and other investable assets
- 4) Adding approximately \$3 Trillion in Federal Debt to the existing 23+Trillion Federal Debt the US taxpayers already owe
- 5) Destroying the livelihoods of 300,000,000 citizens, preparing massive undefined “bailouts for industries” cobbled together by lobbyists and politicians while “throwing a bone” to any person who would have earned any income at all. “Gee, you would have made \$50,000 this year...and your 401K has devalued, and the house you own has devalued, so you’ve lost \$100,000 or so on the deal...here’s a couple grand...be a good citizen and go away.”
- 6) Set up for a massive power grab of the United Nations done through the guise of the World health Organization...as well as “new massive pandemic global tax.”
- 7) Set up for more massive health insurance premium\deductible increases under the guise of “COVID-19 costs MUST be now added in on top of all prior rate calculations.”

Unfortunately, all 7 items above based upon clearly fraudulent projections that can be destroyed using basic research and Common Sense math. The declaration of DeFacto Global Martial Law and the loss of the capitalist system and the destruction of most Civil Liberties by this use of fraudulent projections should chill the reader!

Following this introduction is the full blown analysis in two parts: First is the Math. Second are the false sales pitches marketed to confuse the public. Conclusions follow but the bottom line summary is presented here:

For 2,200,000 people to die “over the next few months” means that every day between 10,000+ (7 months) and 24,000+ (3 months) people NEED TO DIE EVERY SINGLE DAY IN THE USA! From March 18 to March 19 AROUND THE GLOBE there were 1,108 deaths attributed to COVID-19.

10,000+ PEOPLE PER DAY ARE NOT GOING TO SUDDENLY START DYING FROM COVID-19! The projections are FRAUDULENT!

## THE COVID-19 MATH

*When will Defacto Global Martial Law be lifted?*

*Defacto Global Martial Law will be lifted when the threat from COVID-19 is eliminated.*

*COVID-19 is a virus akin to influenza and the threat from influenza has never been eliminated.*

*The threat from COVID-19 will never be eliminated!*

*When will Defacto Global Martial Law be lifted?*

The first cases of COVID-19 were reported out of China in November, 2019.

According to the Johns Hopkins COVID-19 map of March 19, 2020, (JH19) there are a total of 81,154 cases in China in the 5 months since the first reports. There are 2,978 deaths for Hubei, China in JH19.

The day prior on JH18 the death total for Hubei was 2,503 deaths for a total increase 475 deaths.

The population of Hubei was 58,500,000 in 2015, and is undoubtedly higher today.

So...at the epicenter of the outbreak...5 months later...475 deaths are attributed in a 24 hour period in Hubei...out of a population of 58,500,000

The USA has a population of 330,000,000.

The average daily death rate in the USA is 8,000 people per day (excluding the 2,500 babies aborted each day)

The average death rate % in the USA is 0.0024%.

The global population is 8,000,000,000 people.

Applying the same death rate for the USA means that 194,000 people die globally every day.

The population of Hubei is 58,500,000.

Applying the same death rate for the USA means that 1,418 people die in Hubei every day.

The issues are:

- a) 5 months in is the average daily death rate in Hubei increasing from 1,418 in a statistically significant manner?

If the average death rate is not statistically different then all one is doing is changing what is written on a death certificate. Instead of pneumonia deaths or cancer deaths the death is now listed as COVID-19 because COVID-19 existed in the body while ignoring the possibility that the underlying conditions set the body up to die.

- b) 5 months in does the change in average daily death equal anything near the projected 2,200,000 dead in the USA in "the next few months?"

The answer is obviously NO!

---

The chart on page 3 explains why in more detail. The full chart explanation starts on Page 4.

Remember, the 2,200,000 dead in the "next few months" is what the Los Angeles Times states the US preparedness is at least partially based upon. This 2,200,000 dead in the "next few months" is why Defacto Global Martial Law has been declared and Civil Liberties globally are trashed!

WAKE UP FROM THE MATRIX!  
 READ THE BYZANTINE PINEAPPLE!

Chart illustrating the impossibility of 2,200,000 Americans dying from COVID-19 in the Coming Months

www.pojje.biz  
 www.painless-pojje.com

On March 18, 2020, the projected number of dead “in the next few months” in the USA is 2,200,000. “Few Months” is quite nebulous but connotes “short term.” For the analysis “short term” is defined as between 3 and 7 months. The chart is scaled for a 30 day month for a 3 to 7 month period.

For 2,200,000 people to die in the next 3 month\90 day period the average daily death rate is 24,444 PER DAY!

For 2,200,000 people to die in the next 7 month\210 day period the average daily death rate is 10,476 PER DAY!

The article was published on March 18. It is now March 19. The “few months” time period has been decremented by 1. There is now one less day available for people to die to reach the benchmark of 2,200,000.

Rather than assume 2,200,000 deaths in the USA change the analysis to GLOBAL COVID-19 deaths. Globally there were 1,108 deaths from March 18 to March 19 attributed to COVID-19 (although, as pointed out already, not SOLELY ATTRIBUTABLE to COVID-19).

To globally reach 2,200,000 there are now between 89 and 209 days. The daily death rate has gone up. To reach 2,200,000 dead in now 89 days means that 24,707 have to die globally DAILY to reach the projected death total.

To reach 2,200,000 dead in now 209 days means that 10,521 have to die globally DAILY to reach the projected death total.

On March 20 these numbers will jump up again.

Why? BECAUSE 10,000+ PEOPLE ARE NOT GOING TO GLOBALLY DIE FROM COVID-19 FROM MARCH 19 TO MARCH 20!

---

The population of the USA is 330,000,000. The population of China is 4 times that of the USA. The virus doesn't know nationalities. Logically, if 2,200,000 people are going to die in the “next few months” in the USA, then ballpark 4 times as many should die in China. In fact, the virus has been active in China for 5 months. If an average daily death rate between 10,000 and 24,000 are needed to achieve the 2,200,000 then somewhere between 40,000 and 96,000 SHOULD ALREADY BE DYING DAILY IN CHINA! 5 months later the single highest regional number is China is the Hubei increase of 475 deaths.

The numbers are NOT even close!

The projections used to impose the aforementioned Items #1-7 are based upon fraudulent projections! Defacto Global Martial Law and the destruction of Civil Liberties are all being perpetrated by FRAUD! THIS SHOULD SCARE THE BLEEP OUT OF YOU!

#### False Sales Pitches

##### 1) The Hospital\Medical Scare

On March 19, 2020, any News Website or News aggregator website in the United States can be visited and the following will NOT be seen: A single story of any hospital in the United States crushed under the weight of COVID-19 patients. Juxtapose this with the fact that the DeFacto Global Martial Law is based upon projections that between 10,000 and 34,000 American Citizens are “expected to die from COVID-19” EVERY SINGLE DAY FOR THE NEXT FEW MONTHS!

The whole medical industry scare story is a sham. The medical industry and the hospitalization treatment industry are actually nothing more than a form of factories. Cars or drones or silly putty may not be the end product but the economics of treating humans work the same as in a factory. There is always "Supply vs. Demand."

When Pearl Harbor was bombed and the United States of America entered World War II there was neither the manpower nor the armaments in the military industry to wage a global war multiple fronts throughout the Pacific Ocean, Asia, Africa and Europe. In 4 years' time the Supply of Soldiers and Armaments to meet the Demands required to wage global warfare and defeat the Axis powers had been met and it became time to start reducing the Supply of GI's as WWII was over and the Demand did not meet the Supply.

Yes, it is tragic that many front line hospital people in China and Italy have experienced tragedy in treating the initial patients. However, the laws of economic Supply and Demand are in play. As the Demand for more bedding and housing and ventilators as well as doctors and nurses increases the supply of all those resources will increase. In WWII the technology in terms of aircraft and tanks and other armaments evolved to better meet the needs of the military so too will the medical advances in treatments for patients of COVID-19 occur. In fact the ramp up and technological changes in treatments to better address the COVID-19 patients is already well underway.

## 2) The Pandemic Scare

WHO and the United Nations and the global nations repeat phrases stating that "this is a pandemic" so "everyone MUST be scared." This is no more of a pandemic than the annual influenza Pandemic. Annually global hot spots of influenza pop up. The influenza activity is not labeled as a "pandemic" yet the annual influenza attack FOLLOWS THE EXACT SAME PATTERN AS THE CURRENT COVID-19 ATTACK!

Stating that COVID-19 is a "pandemic" is a meaningless scare tactic. Pandemics happen annually; they just aren't marketed as "Pandemics."

## 3) DeFacto Global Martial Law was necessary to save millions of lives

When everything is said and done it is patently obvious what the world leaders will say and do. They will pop champagne and tell the citizens of the planet Earth that the leaders who shut down everything and instituted DeFacto Global Martial Law saving millions of lives. The leaders should have monuments built in their great honor.

As already dissected, the projections of "millions dead due to COVID-19" are fraudulent projections. Millions were NEVER going to die from COVID-19.

## 4) COVID-19 "shut this down" and "shut that down."

Every day there are stories and headlines start out with phrases such as "COVID-19 shut down all air travel" and "COVID-19 shut down the cruise industry" and "COVID-19 shut down etc., etc." These statements are all lies. COVID-19 has not shut down one single industry. It is the Global Leadership which shut everything down; NOT COVID-19. COVID-19 is just the excuse used for the global power play.

5) Someday everything will return to “normal.”

No, it won't. There has been irreparable damage to the economic system as a whole plus the power grab by the United Nations and the New World Order is now underway. The following changes are underway:

- a) The US Federal Debt will increase from the current \$23.4 Trillion by at least \$3 Trillion in the next 12 months. Why?

The estimated Federal Revenue for FY2021 was \$3.8 Trillion. This works out to a ballpark \$300B per month lost. Three months of lost tax revenue is \$900B

The USA will easily lose 3 months of taxing income because there is no income! Also, tax losses are skyrocketing as individuals and corporations globally file losses.

This is coupled with the inevitable “Bailout and Stimulus” legislation cobbled together by lobbyists and politicians in a matter of weeks which will add at least another \$1 Trillion of unplanned spending.

The Federal Reserve is now printing cash at record rates. There is so much cash printed by the Federal Reserve that the interest rate on the US Dollar is basically zero. All those Federal Reserve Quantitative Easing purchases are now worth less devaluing the dollar even further. Meanwhile the Federal Debt and Federal Deficit both dramatically increase making less tax revenue available for productive use as more and more tax dollars are used to pay principal and interest.

Medical Insurance premiums and deductibles can once again be expected to dramatically increase as the costs associated with new COVID-19 mandates are passed on to the consumer.

Meanwhile, the citizens who do have capital have no safe place to put the capital. Investing in the US Dollar and related investments yields nothing. Yet investing in the stock market can be viewed as an even greater risk as globally citizens await the inevitable second declaration of Global Martial Law killing the various investment markets again. The New World Order has effectively achieved their goal of killing Capitalism.

- b) The United Nations New World Order will seek to institute new “Pandemic” systems through WHO.

A massive global Pandemic tax will be sought.

Legislation legitimatizing the imposition of Global Martial Law anytime WHO cries “pandemic” will be introduced. This new legislation will effectively be giving WHO global control of all economies.

Plans are already being introduced to bar code citizens as to whether the citizen has tested positive for COVID-19 or not. This bar coding is basically the same as was done to the Jews

by the NAZI's at Auschwitz. This will be coupled with "social compliance credit score" rating thereby controlling the financial capability of those deemed unworthy via being a COVID-19 carrier.

- c) Citizens around the globe will erupt in massive unrest in spots around the globe. This is because many people still will not have jobs despite government assurances to the contrary. Citizens will also start assembling in protest and since this will be in violation of the global "suspension of the right to assemble" the inevitable violent conflicts between the police forces and the assembling citizens will occur which will cause unnecessary death. This will be used as a reason to disarm citizens completely.

At the same time, criminals are being set free or not even charged for any crimes of theft. The efforts of the police are instead being redirected to hunt down COVID-19 Martial Law offenders. The already blurred lines between legal\illegal and criminal\noncriminal have become blurred even further.

#### 6) COVID-19 will be "contained"

The John Hopkins Institute estimates that the actual number of carriers of COVID-19 is 15 to 25 times the number of actual cases reported of COVID-19. On the morning of March 19, 2020, the John Hopkins website stated that there are 222,643 confirmed cases of COVID-19. This means that scattered around the globe in over 100 countries are between 3,300,000 and 5,560,000 carriers.

That means that on March 19 there are at least 3,000,000 and perhaps 5,500,000 undetected carriers of COVID-19. Each day the number grows as humans will continue to interact with each other. In fact, the global elites are obviously not shutting down their party lifestyle and they can bribe their way anywhere on the globe even under martial law.

COVID-19 cannot be contained. It is already ubiquitous. Despite this ubiquity mass death is NOT underway.

#### CONCLUSION

This global power grab is being perpetuated by all the various political parties in the western world. This global power grab is based upon fraudulent COVID-19 modeling. It is patently obvious looking at the existing data that millions of humans are not going to die from COVID-19 in the next 12 months.

This means that the destructive shut down of the global economy and the imposition of DeFacto Martial Law never was necessary. The return to normal life can begin any day that the global governments decide to do so. Unfortunately until "We the Global People" unite and reject the current global leadership's plans the people of the world are stuck under Defacto Global Martial Law.

*When will Defacto Global Martial Law be lifted?*

*Defacto Global Martial Law will be lifted when the threat from COVID-19 is eliminated.*

*COVID-19 is a virus akin to influenza and the threat from influenza has never been eliminated.*

*The threat from COVID-19 will never be eliminated!*

*When will Defacto Global Martial Law be lifted?*
